**OBERBERGISCHER KREIS
DER LANDRAT**
AMT FÜR SCHULE UND BILDUNG

Your child goes to school (first to sixth grade).
Maybe there are problems.

Your child has problems with learning?
With reading, writing or maths?

Your child cannot listen very well?

Your child has problems with other children or adults?

Your child is afraid of school?

The teacher can help with many problems.

But sometimes this is not enough.
Do you want more help?

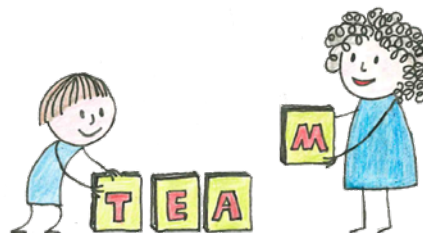

**Then ask us,
the school psychologists!**

We work together with schools and parents.

What do we want to do?

- Find answers together
- Have new ideas together
- Solve problems together

Our goal:

Your child should feel well and
he or she should be able to learn well.

What do we do?

We speak to you and your child.
An interpreter can help.

Maybe we will have a closer look
at your child in school.

We will watch carefully:

- How does your child feel?
- Why does he/she have problems?
- What can your child already do?
- What does he/she still have to learn?
